(54) TONER FOR ELECTROPHOTOGRAPHY

(57)Abstract:

PURPOSE: To provide an electrographic toner characterized in that fixing is quick with a low heat energy, and that fluidity, friction electrification characteristics, stability of concentration of toner picture during continuous development and spectral reflection characteristics are excellent without cohesion during preservation.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
